

# ENERGY FOR LIVING

UNTRASOL is established in 2016 by a group of supply chain professionals with the aim of providing professional procurement and sourcing services for industrial projects throughout the Middle East, CIS and Eastern Europe countries by using their extensive knowledge and experience.

Recently, UNTRASOL not only acts as a sourcing agent but also as a distributor, representative and reseller of worldwide known brands in industrial and construction area with its headquarter located in the organised industrial region of Ankara, Turkey.

The most important policy of our company is to be a single source for all our clients' goods and services requirements. Our aim is to respond fast, to offer the best with best conditions and to complete supply process with top quality and best competitiveness.

Keeping our customers updated about the latest developments in their fields, promoting latest technology products and services, bringing our customers together with the experts to share know how, are important parts of our customer satisfaction policy. With the support of latest available software and technology, we record customer requirements strictly in order to analyze the possible future requirements and get in position to serve them at our best with a very pro-active approach.

Currently, UNTRASOL is capable of supplying any kind of requirement for construction and industrial projects from start to end such as Testing & Measurement Equipment, Safety & Fire Fighting Equipment, Spare Parts & Hand Tools, Electrical Parts & Equipment, Mechanical Parts & Equipment, Machinery & Construction Equipment, Construction Materials & Miscellaneous and so on.

We hope to be of service to you herewith, and if you have any question or enquiries, please feel free to contact us.

Best regards.

UNTRASOL ENERJİ İÇ VE DIŞ TİCARET LTD. ŞTİ.

# ENERGY FOR LIFE

## **PROCUREMENT & SOURCING**

Procurement is playing a more strategic role than ever before, helping companies achieve and sustain a competitive advantage by keeping costs low, providing goods and services efficiently and effectively, and drawing on the innovation and quality insights of suppliers.

## **COST CONTROL & REDUCTION MANAGEMENT**

Cost control and cost reduction management is an integral factor of competitive advantage in many cases. UNTRASOL professionals offer you a complete evaluation of your current cost factors and create a complete revision in your procurement system to create you a significant cost reduction and hence provide you competitive advantage with lowered costs.

## **MARKETING & SALES**

Developing a successful marketing and sales strategy needs having a comprehensive understanding of the business, its market and its customers. We have many years of practical experience with preparing marketing and sales strategies. We can carry out a review of your marketing and sales strategies, capabilities and activities, and propose a more optimized marketing and sales model.

## **TRADE CONSULTANCY**

UNTRASOL offers various line of consultancy services for small and medium sized enterprises (SME) which do not have marketing & sales, procurement and foreign trade department to carry out their trade activities with high efficiency. Our experienced staff specialized in concerned business areas evaluate the current processes and reports for possible areas of development and revisions.

## **DISTRIBUTORSHIP & REPRESENTATION**

UNTRASOL represents reliable and experienced manufacturers from USA, Canada, Europe and Asia and presents their products to governmental organizations and private companies which are active mainly in oil and gas, power generation, construction and manufacturing industries all around our region. Our experience brings us the advantage to supply goods throughout our region including Eastern Europe, CIS and the Middle Eastern countries.

## **SUPPLY CHAIN MANAGEMENT**

Based on experience with clients across industries and borders, UNTRASOL has built a integrated approach to Supply Chain to help companies change the way they source and manage the materials and services they are in touch with.

## **MIS MANAGEMENT**

A management information system gives the business managers the information they need to make decisions. As more data was stored and linked, managers sought greater abstraction as well as greater detail with the aim of creating significant management reports from the raw, stored data. Originally, the term "MIS" described applications providing managers information about sales, inventories, and other data that would help in managing the enterprise.

## TESTING & MEASUREMENT EQUIPMENT

- Measuring, control and monitoring devices for building technology, industry and environmental protection.
- Highest quality testing equipment for construction materials, concrete, soil, asphalt and general laboratory equipment.
- Power system testing solutions, electrical testing equipment, primary and secondary testing, electrical monitoring systems
- Thermostatic bath products and accessories, viscosity baths, high and low temperature circulators, thermometers & calibration, accessories for viscosity measurements.
- Electronic test tools, equipment, calibration systems and networking solutions.

## SAFETY & FIRE FIGHTING EQUIPMENT

- Fire fighting system equipment and spare parts, hoses, couplings, hydrant systems.
- Fire protection solutions, sprinkler systems, fire detection, early warning, extinguishing systems and systems for fire vehicles.
- Occupational safety products, head, eye, ear and face protection, eye wash units, gas detection, safety equipment, gas detectors, respirators.
- Locking systems, door handles, padlocks, safes, digital door locks.
- Safety shoes, shock absorbing shoes, oil resistant working shoes, electric resistant safety shoes, military shoes, safety footwear.

## ACCOMMODATION & CAMPS

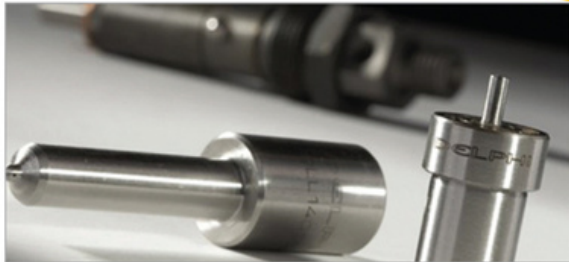

- Industrial kitchen and laundry systems, washing machines, dishwashers, kitchen equipment, industrial ovens, industrial dryers.
- Prefabricated site buildings, dormitory and Office buildings, hangars, warehouse buildings, container systems, demountable containers, steel site buildings.

## SPARE PARTS & HAND TOOLS

- Highest quality and reliable spare parts, injector systems for pumps, transmission parts.
- Computer products, printing materials, printing equipment, consumables, networking products.
- Cutting pliers, gripping pliers, combined pliers, pincers, crimping units, tweezers, tool cases.
- Complete range of bearing units, oiling & lubrication systems, testing and control equipment, shaft alignment units, vibration units.
- Hand tools, leveling tools, finishing tools, cutting tools, clamps, woodworking, struck tools, hand tool cases, measuring tools.

## MECHANICAL PARTS & EQUIPMENT

- Heat exchangers, separator units, pump systems, fluid control, spare parts, centrifugal systems, oil and gas separation systems.
- Complete product range of electric actuators, valve gearboxes and ball valves, industrial valve systems, valve blocks.
- Filtration systems and replacement parts, dust collection, power generation, specialty filtration, compressed air purification, off-road equipment, industrial compressors.

## ELECTRICAL PARTS & EQUIPMENT

- Complete range of electrical parts, switches, circuit breakers, protection units, communication modules, sensors, relays, switchboards, contactors.
- Motor and drive systems, cables, switchgears and systems.
- Low, Medium & High Voltage electrical motors.
- High-quality Human Machine Interface products and solutions, from switches, keypads and keyboards to complete custom built control panels.
- Industrial automation and power control systems, process automation and controls, integrating digital drives, PLCs with networking and interfacing with process computers.
- Aluminium & Cast Iron AC motors, High Voltage motors, multi-speed quadratic and constant torque motors, flameproof motors and pumps, brake motors, marine motors.

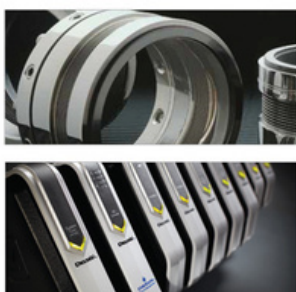

## MACHINERY & CONSTRUCTION EQUIPMENT

- Asphalt Batching Plants with various capacity and brand to work under different conditions, spare parts and consumables.
- Excavators, loaders, asphalt pavers, forklifts, cranes, drilling rigs, mist cannon and other construction equipment from worldwide brands, all related spare parts and consumables.
- Workshop equipment, machine tools, lathe machines, cnc units, radial drills, milling machine, band saw.

## CONSTRUCTION MATERIALS & MISCELLANEOUS

- Repair pastes, adhesives, coating and urethane products, emergency repair pastes, gasketing.
- Industrial blades and needles.
- Silica gels, industrial chemicals, lubrication units, lubrication oils, greases.
- Industrial textile materials, fire proof textile products, coated and special yarns, scrims for reinforcement, industrial fabrics.
